<b>Qualifying:</b>	6	5	2
<b>1.Heat:</b>	27	5	4
<b>2.Heat:</b>	dnf	6	7
<b>Overall:</b>	34	5	4

**Hendrik Nolting (team-manager):** Unfortunately we couldn't really live up to our expectations after a good qualification of all three riders. Especially with Dennis we thought that he found a way out of his hole, but in both races he literally gave up after a couple of good laps and didn't even finish the second moto.

Lars had an good start in moto 1 and stayed in 2<sup>nd</sup> for most of the race but 2 small mistakes cost him his place on the podium. He rode his last lap in unbelievable 1:54,17 min, which was the fastest race lap time of all classes, even Nagl and Desalle were half a second slower, but it wasn't enough to move back into 3<sup>rd</sup>. Two crashes ruined a better result in the second heat, even though I have to say that he was riding good and aggressive.

Lloyd hat to come back from a midpack start in the first heat and 5<sup>th</sup> wasn't really what he had hoped for, but ok considering from where he started. In the second heat he had the start he wanted but dropped back because he was getting tired and making mistakes.

The boys are 2<sup>nd</sup> and 3<sup>rd</sup> in the championship now with 4 races to go, so everything is still open, but the weekend showed that the level of competition is high and we can't afford many more hiccups.

Next race: Strassbessenbach (D) DM Open
