Qualifying:	6	30	dnq.
1.Heat:	5	11	
2.Heat:	13	15	
Overall:	9	10	

Hendrik Nolting (Team-manager): Gemert without rain or snow! That was really something new to me ☺!

Michael had problems to get to terms with the track and never found a rhythm in practice, so unfortunately didn't qualify for the highly competitive MX2 class.

Lars also struggled in practice and had to pay his due with a bad starting position. This caused him an extra lot of work in the races but he fought his way through the field. Even though he wasn't too happy with his results personally, I believe a 10th. overall in this field is something he shouldn't be ashamed of.

Dennis felt good in qualification already. He had a mega start in moto 1 and was third, pushed hard and moved into the lead after Max's mistake. Unfortunately he also crashed halfway through the race but then still finished 5th. The 2. start wasn't as good and after another small crash he had to settle for 13th.

Our bikes in both classes are fast and reliable already and we found a good base for the suspension. Now we will have to work on the personal set ups for the boys.

Next race: HALLE (NL) Dutch Open
