 Track: Sand
 Temperatures: 8°C
 Number of spectators: n.a.

Results: **D.Schröter(D) L.Oldekamp(D) M.Kaussen(D)**

Qualifying:	10	15	dnq
1.Heat:	7	7	
2.Heat:	15	24	
Overall:	8	24	

Dennis Schröter: *Not a good weekend for me. I had a technical problem in practice so I didn't do too many laps. After a mediocre start in the first heat I only pushed for 3-4 laps, after that I somehow lost the drive and only rode to the chequered flag. My second start was awesome but Saris crashed in front of me and I couldn't avoid running into him. I restarted dead last but never found a good rhythm. I'm disappointed.*

Lars Oldekamp: *Overall I'm happy with my performance, even though the results don't show. After a start - crash in moto 1 I pushed hard all the way and finished 7th. I was in 7th for a long time in the second heat and I really wanted to pass the guy in front of me. I tried to get by over the finish line jump on the last lap and that's all I can remember..*

Michael Kaussen: *I felt ok in free practice, but wasn't able to improve my lap times in qualification, so unfortunately didn't make it into the races. It was much closer than last week, but I still struggle to get used to new tracks in such a short time.*
