Dennis Schröter: *Coming back from Spain last week I already felt sick. I was hoping to feel better on race-day, but unfortunately it didn't come true. I had no energy and couldn't really push. In practice I had massive arm-pump after only half a lap. My start in race one was awesome until someone hit me in the side sending me across the field, then it all went black. I tried to get going again but crashed again and pulled out. In race 2 I just tried to finish but I was only riding not racing. I'm going to take some time off now to recover and hope I can show my true potential in Frankenbach next weekend.*

Lars Oldekamp: *I really like the track, even though I struggled to find a rhythm in practice. I also had problems starting off concrete but the races went really well. I fought my way through the pack and had a lot of fun. I could have finished better in the second moto without my crash but I'm happy with my performance anyway. Now I'm looking forward to Frankenbach.*
