2.Race: **dns**
Overall: -

Dennis Schröter:

I'm furious!!

I was really looking forward to racing here. After a decent qualification I felt that I could even improve in the races. My first start was ok, and I was 4th or 5th for a few laps. After a mistake I lost a few places and had to regroup in 12th position. I had already worked my way back up to 7th when a broken intake rubber caused my carb to jump off. To ruin my weekend completely my battery died on the starting line of the second moto.

Normally I'm not happy when races have to be cancelled, but now without the race in Berghem I will be able to race the final round of the ADAC MASTERS in Höchstädt.

Next race:

EMMEN (NL) DUTCH OPEN
