**Dennis Schröter:**

*What can I say? This was a perfect race - day for me. I was already fastest by more than 2 seconds when I was still cruising in free practice. The only thing I didn't win was the holeshot - bonus for the first start, I had to back off, otherwise Angus and myself would have crashed.*

*My team showed me my lap-times to keep the pace high, so all in all it still wasn't a cakewalk for me. Now my hope is that I can carry some of this drive into the next races.*
